# HISTORY OF ANKUR SCHOOL

The idea of having a Nursery school on the Campus of P.U. was a long cherished dream of the resident, so all the members of the Student Aid society met and discussed the possibility and finally decided to work in this direction.

Mrs. Suraj Bhan carried on the idea of free school in the campus for the junior employee's children.

The PU Student Aid Society then embarked upon establishing Nursery school on modern lines, to provide quality education to young ones from the very start. The purpose was to fulfil long felt need of the parents residing in the campus as well as in the adjacent sector, for a Nursery school. It was thus, a welfare activity on the campus in the true sense of the term. Thus, Student Aid Society has remained a parent body. The school was named Ankur Nursery School, which got formally inaugurated on 25th February, 1973.

Following are the objectives of Ankur School.

1. To initiate or undertake any scheme for the welfare of the students.
2. To collect funds through donations, subscriptions, film shows in the university campus, dramas and organizing fetes etc. for providing aid to needy students.
3. To foster a spirit of social service amongst the members.

A number of welfare schemes were introduced to ensure quality education in the school.

## STRENGTH & CHARACTER OF THE SCHOOL

Ankur was conceived of and planned as a Nursery school (Kindergarten). Ever since its inception, it was started with a mission of helping the poor children of the junior employees on the campus and surrounding sectors.

It is a non profit and self- sustaining institution.

**Ankur School**

Ankur School believes in making a difference in the life of every child we admit. The motto of the school “Light and Learning” suggests our priority to provide children with the broadest possible education and an atmosphere where their passion for academics and sports can be recognized, valued and shaped. We inculcate human values like compassion, honesty, fortitude and perseverance in our students so that they can become leaders of tomorrow.

The faculty at Ankur believes in sharing knowledge with the students, motivating them to explore and excel in every field and be their role model.

“

*If you are planning for a year, sow rice, if you are planning for a decade, plant trees, if you are planning for a lifetime, educate people.*

**Chinese proverb**

Education is not learning by rote and then repeating it in the examination. Our approach is student centered and goes beyond text books, class rooms and boundaries. Students develop practical skills, enabling them to apply their learning to unfamiliar situations and think critically about different issues. These prepare them for a lifelong success.

I am of the view that education cleanses ignorance and spreads light of knowledge and wisdom.

Young minds are the prospective architect of nation's destiny. We stand committed to their all round development and well being.

Our staff dedicatedly follows the motto of “explore research and achieve” in their quest for excellence.

We are very grateful to our parents for their sincere involvement in the school. Without their single-minded cooperation between the school and home, we cannot offer the holistic education towards which we are striving.
